

LATCHES ENSURE SECURITY

Latches are essential features to ensure enclosures are secure and safe, and these innovative latches do just that! The latches are designed to provide the maximum amount of protection with an ease of operation. Unique to these specific enclosures, the latches are IP66 rated, with the Integrated Latch being IP68 rated, to provide high levels of protection against particles and water.

Integrated Locking Latch IP68, NEMA 6P

The integrated latch provides for a very clean look and an easy opening of the enclosure. Self-tapping screws, tag-out and pad lock capabilities are standard for this latch, providing an additional security for your enclosure. Rated NEMA/UL 6P (IP68), this latch will protect your enclosure and components against corrosion, dust and water entry upon submersion.

Non-Metallic Locking Latch IP66, NEMA 4X

With protection capabilities including self-tapping screws, tag-out, and padlockable, this latch is bolted in place for a more secure system than pop rivets or slide on latches. The non-metallic locking latch is NEMA/UL 4X (IP66) rated and enhances enclosures of all sizes.

Stainless Steel Locking Latch IP66, NEMA 4X

These latches are securely bolted in place on the enclosure to provide a more secure system than pop rivets or slide-on latches. You can choose your level of protection with pad lockable, self-tapping screws and tag-out capabilities. With a NEMA/UL 4X (IP66) rating, this latch provides durability, ease of use and a clean appearance.

Screw Cover IP66/IP68, NEMA 4X & 6P

The screw-cover comes with four captive Phillips screws, with tamper screws also available. The screw-cover is rated both NEMA 4X (IP68) and NEMA 6P (IP68) rated, to ensure protection against corrosion, dust and the entry of water during prolonged submersion.

Quarter-Turn Latch IP66, NEMA 4X

The quarter-turn latch is available exclusively on the largest sizes. The latch provides a quick and simple solution for a tight seal that's easy to install and operate. With a clean, modern look, this latch is ideal for any large enclosure that requires regular accessibility. The quarter-turn latch is NEMA 4X (IP66) rated.

In addition to the standard latches, a three-point latch is also available to fit your enclosure.
