

SUPERIOR PROTECTION. SUPREME PERFORMANCE.

Protect your system's components with our wide selection of UL and NEMA-rated Enclosures. Each enclosure is built with first-rate materials for maximum safety and security. Choose between Polycarbonate, Fiberglass or Stainless Steel depending on your specific application. Equipped with innovative latches for premium security and protection against environmental elements.

Don't Settle for Less. Choose Sealcon Quality.

FIBERGLASS & STAINLESS STEEL ENCLOSURES

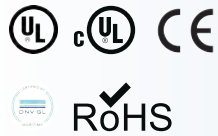

Corrosion & UV Resistant | Rigid Construction | Ideal Option for Heavier Loads

- Solar & Renewable Energy
- Wastewater/Water Treatment
- Pharmaceutical
- Chemical Processing

Select Series S

4x4x1 thru 10x7x6 inches

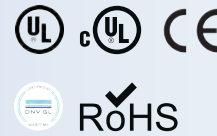

- Fiberglass Reinforced Polyester
- Available in 36 sizes
- High tops for easy access
- Comes with either Metric or PG knockouts
- Slots in base for printed circuit boards
- IK08 Impact Rating
- NEMA 4X, 6 / IP66, 67

Origin Series O & Winclosure Series W

8x8x5 thru 24x16x7 inches

- Fiberglass Reinforced Polyester
- Larger sizes. (8) Base Sizes
- Serie W: Wall Mount Cabinet Style Enclosures
- Comes with plain sides or metric knockouts
- Available with pre-assembled hinges and quick-release latches.
- Extension Frames Available
- IK08 Impact Rating
- NEMA 4X / IP66

Nookbox Series N

12x10x5 thru 31x24x12 inches

- Fiberglass Reinforced Polyester Wall Mount Cabinet Style Enclosures
- Sturdy construction and high corrosion resistance
- Large sizes available
- Available with plain sides or with a polycarbonate window
- Built-in protective edge prevents water intrusion when opening the door
- Available in 7 different size openings
- IK10 / IK07 Impact Ratings
- NEMA 4X / IP 66

Strongbox Series S+

Custom Sizing

- 304 or 316 Stainless Steel with #4 Brushed Finish
- UL50E, NEMA 4X Rated Enclosures
- Corrosion, chemical & washdown resistant
- Multiple latch and hinge options available
- Polyurethane foam-in-place gasket
- Multiple mounting options available

POLYCARBONATE ENCLOSURES

Lightweight | Impact, High Temperature & UV Resistant | Fade-Resistant

- Solar & Renewable Energy
- Wastewater/Water Treatment
- Security & Surveillance Systems
- Telecommunications
- Traffic Management

Premium Series P

6x6x4 thru 18x16x10 inches

- Available in light gray, high gloss finish with Clear & Opaque covers
- Unique T-Rail mounting system
- Stainless Steel (LL) or Non-Metallic (NL) locking latches
- EZ Hinge (for easy lid removal) or Non-hinged
- Mounts with feet or flanges
- Widest Selection of Sizes & Configurations
- 565 in/lb. Impact Rating
- NEMA 4X, 6, 6P / IP66, 67, 68

Impact Series I

4x4x3 thru 10x8x6 inches

- Frequency Friendly – Available with no metal materials which is ideal for wireless transmissions.
- Cost Effective
- Integrated mounting flanges for easy mounting
- EZ Hinge (for easy lid removal)
- Integrated Stainless Steel, or Non-Metallic latches
- Clear & Opaque cover options
- 565 in/lb. Impact Rating
- NEMA 4X, 6, 6P / IP66, 67, 68

Polycon Series

9x7x5 thru 19x17x11 inches

- Exclusive Corner Elevator System for easy interior height adjustments
- Wide Selection of Sizes & Configurations
- Highest IP Rating @ IP69
- Light & Tough
- Hinged Front Kits
- IK 10 Impact Rating
- NEMA 4X, 6, 6P / IP66, 68, 69

Genesis Series G

20x16x8 thru 24x24x10 inches

- Largest Frame Size Offerings
- Multi-Max Rail System for superior interior mounting potential for superior rigidity
- Multiple latch options available
- Swing panel with aluminum piano-style hinge attaches to Multi-Max Rails for rigid, smooth operation
- Removable hinge for quick & easy assembly/disassembly
- 565 in/lb. Impact Rating
- NEMA 4X, 6, 6P / IP66, 67, 68

Dynamic Series D & Pushbutton

2x2x1 thru 12x9x4 inches

- Contemporary design with faceted corners and cover plugs
- Slots in the base for printed circuit boards
- Small Frame Sizes with plain sides
- Fastening Pods Inside the Cover
- IK08 Impact Rating
- NEMA 4X, 6 / IP66, 67
