

PRODUCT SPOTLIGHT

Single Hole RJ45 Panel Connectors

Sealcon is offering Hummel's new connector, which features three feed-thru versions, two with an extended body. It works with any terminated RJ45 patch cable. No threaded mate required. Can be used with knockouts or in M25 and 3/4" NPT threaded installations.

There are many options when choosing a Single Hole RJ45 Panel Connector:

- Front/Rear Mount with M25 thread, plus Retaining Nut (top)
- M25 thread with Strain Relief, plus Retaining Nut (middle)
- 3/4" NPT thread with Strain Relief, plus Retaining Nut (bottom)

These Single Hole RJ45 Panel Connectors are **compact and rugged!**
