T 02 .....	7.T02

Signal Distribution

In case of so called Flying Connections it is often required to distribute, cross or combine signals. Depending on the requirements of the application, the connections can be supplied either as male or female connector, or they can be configured with strain relief fittings. There are many possible combinations, including the internal wiring, independent of their style, as T-, Y-, H-, or other special configurations.

Bus End Connector

Type	Part Number
Closed type .....	7.105.000.000
Used to cap an open male connector in bus-systems	

Housing without inserts and contacts

<sup>\*)</sup> No compatibility with TWILOCK
