

SEALCON

Leading Provider of Cable Management Solutions

Sealcon is your one-stop-shop for cable management solutions. With over 6,000+ options available, we have what you need for your application. Whether you are looking for cable glands, circular connectors, enclosures, accessories or conduit systems, our quality products will exceed your demands.

Liquid Tight Cable Glands

- Type NEMA 4x & 6 (IP68 / IP69K)
- Submersible (300 ft) & Non-Corrosive
- Pressure Rating: 150 PSIG / 10 BAR
- 316L Hygienic Glands for wash down
- Flammability Rating: VO (Phosphorous & Halogen-Free)
- Overlapping clamping splines push on form seal concentrically, protecting your cable from damage
- ULf1 (746C) Solar / Outdoors (Black Nylon Only)
- Cable Glands for Hazardous Areas Ex-e and Ex-d Class, Div and Zone Ratings

Adapters, Reducers and Enlargers

- Reducers, Adapters and Enlargers
- Hole Plugs, Dome Plugs, Locking Nuts
- Blind Plugs, O-rings, Seal Rings and more
- Nylon, Nickel Plated Brass, Stainless Steel

Flexible Conduit

- Liquid Tight Corrugated Conduit in Nylon
- Metal and Pro Series Conduit with PVC and Braiding
- Compatible Swivel and Fixed Fittings

Industrial Enclosures

- Type NEMA 4x (IP67) and IP 69
- Material: Polycarbonate and Polyester
- Smooth walls, PG/Metric Knock-Outs
- Solid / Transparent Lids, Hinged, Latches
- Customization Available! (Call for Details)

Industries Served:

- Solar
- Pumps
- Motors
- Lighting
- Robotics
- Automation
- Packaging
- Wind
- Automotive
- Food
- Marine
- Medical
- Traffic
- And More

Sealcon Circular Connector Options

M8 & M12 Signal PVC + PUR Cable	M12 Power K+L, S+T Coding	M16
M23 RJ45 & PoE Fast Ethernet 	M23 Hybrid Power, Signal and Ethernet in one 	M23 (Signal & Power)
M23 Twilock & Twilock-S Quick Connect	M27 26 & 28 contacts	M40 High Power 55 AMP

Features & Benefits

Patented Eurolock® - on all Power and M16 style Connectors
Easy field assembly - no special tools required to insert & extract contacts
Built in Strain Relief for Braided Cable - All Connectors EMI/RFI ready
Quick Connect System - Threaded & Twilock in one
Multiple Terminations - Crimp, Solder, Dip Solder, and Screw Terminal Solutions
Pre-tinned Contacts - Reliable, faster and safer means of soldering
- M23 connectors work with stamped contacts
Reliable Connection - Contacts with low plug-in force and high mating cycles
Vibration Proof - Spring loaded Socket Contact Technology
IP67 & IP69K - Ideal in spray down applications

Materials: Nickel Plated Brass, Stainless Steel, Over Molded (Optional Tin-Plated)
Types: Straight, Elbow, Panel Mount, Radius Flange & RJ45 (Ethernet) & EMI Ready!
Other Styles: Hermetic, Marine (IP68), Miniature / Push-Pull

Twilock - Quick Connect System

Our TWILOCK Connector offers easy handling and exceptional functionality. Even when access is limited, a simple "twist" and "click" will secure your connection. The TWILOCK is also multi-functional and works with screw connections.

Twilock - S (Intermateable to Speedtec® by Intercontec / Tyco)

Sealcon's new M23 Twilock-S Signal and Power connector shell is now compatible with Speedtec® by Intercontec / Tyco. With a 1/4 turn, the connector will mate. Signal and Power options available as straight and right angle versions.
