

Leading Provider of Cable Management Solutions

Cable Gland

Locking Nut

Buna-N O-Ring

Are you looking for a simple, value-packed pre-packaging kit solution?

Look no further than Sealcon's Cable Management Solutions for Kit Pre-Packaging.

Our pre-packaged kits conveniently include the O-ring, locking nut, and cable gland all in one bag for your ease.

Ask us about adding your logo and part number!

WHAT ARE THE BENEFITS OF CABLE GLAND PRE-PACKAGING?

- 1) Reduction of Warehouse Space Requirements:** A cable gland pre-packaging kit, containing multiple items under a single SKU, reduces the space needed for storage until use.
- 2) Shipping Efficiency:** Shipping packaged kits as a single unit can significantly cut shipping costs.
- 3) Cost Predictability:** Pre-packaged kits promote supply chain standardization, helping to make costs more predictable.
- 4) Simplified Inventory Management:** With one SKU to track, inventory management becomes more straightforward and efficient.
- 5) Enhanced Manufacturing Process:** Packaged kits improve manufacturing efficiency, lower costs, and enable better forecasting.
- 6) Customization:** Get your own part number, and ask about adding your logo to the part for a customized solution.

Your Pre-Packaged Kitted Parts? —

A pre-packaged kit is the ideal solution for any OEM or distributor looking to optimize their supply chain. This approach frees up storage space, reduces costs, and enhances flexibility and core competencies.

Outsource your cable management kitting process to Sealcon, where we offer high-quality cable management products backed by experienced service.
